

Document Conversion Test

This is a **comprehensive test document** to verify all our markdown converters work correctly.

Features Being Tested

Text Formatting

- **Bold text** and *italic text*
- `inline code` and regular text
- ~~Strikethrough text~~ (if supported)

Lists

1. Numbered list item one
2. Numbered list item two
3. Numbered list item three
4. Bullet point one
5. Bullet point two
6. Bullet point three

Code Blocks

```
def hello_world():  
    print("Hello, World!")  
    return "success"  
  
# This is a comment  
for i in range(3):  
    print(f"Iteration {i}")
```

Tables

Format	Status	Quality	Speed
PDF	✓	High	Fast
HTML	✓	High	Very Fast
DOCX	✓	High	Medium
TXT	✓	Medium	Very Fast

Blockquotes

This is a blockquote to test formatting. It can span multiple lines and should be properly formatted in all output formats.

Links and References

This document tests [markdown conversion](#) capabilities.

Conclusion

This comprehensive test ensures that all four converters (PDF, HTML, DOCX, TXT) handle various markdown features correctly and produce high-quality output.

End of test document.
